SUMMARY

Efficient and motivated Computer Science undergraduate student at INHA University in Tashkent, passionate about software engineering and problem-solving. Also, has experience in both Python and Java programming languages, including experience with object-oriented programming, algorithms, and data structures. Additionally, is familiar with version control using Git and GitHub.

Actively involved in self-learning activities and upkeep of technical skills through practicing, studies, and technology-related activities. Highly skilled in problem-solving, analysis, attention to detail, and a strong ability to learn new concepts and technologies. A strong people person, comfortable in individual as well as team-working. Highly responsible, disciplined, and driven towards having actual industrial experience through internships, projects, and the ultimate aim of becoming a competent software developer.

EXPERIENCE

Student Developer (Personal & Academic Projects)

Personal & Academic Projects   **September 2025 - January 2026, Tashkent**

· Worked on self-initiated and academic projects while pursuing a degree in Computer Science at university, concentrating on programming using Java and Python programming languages. Created console-based and small application-level applications to enhance object-oriented programming, Data structure, and problem-solving skills. Implemented basic concepts of Computer Science like Algorithms, Logic, and Optimization of code. Employed use of Git and GitHub for version control and project management for self-initiated and academic projects at university, completing assignments individually and in groups, and enhancing debugging skills, and overall programming knowledge through self-study.

EDUCATION

Bachelor's Degree (In Progress) — Computer Science

Minor in No, I did not minor in any subject. · INHA University in Tashkent · Tashkent, Uzbekistan · 2029 · Not available yet

· I volunteered at Yandex Dev Camp and participated in ICT Week in Uzbekistan. I also took part in Club's Day activities at INHA University in Tashkent and was involved in the university's Graduation Ceremony.

SKILLS

I have programming skills in Java and Python and a solid understanding of core Computer Science concepts such as algorithms, data structures, and object-oriented programming. I am familiar with using Git and GitHub for version control. I have strong problem-solving and logical thinking abilities and can work well both independently and in a team. I am sociable, communicative, responsible, and able to manage my time effectively. I am motivated to learn new technologies and continuously improve my technical and interpersonal skills.
